

2023 Medical Mission Dates

- January 18-22
- April 19-23
- July 12-16
- October 11-15
- Cost = \$600+Airfare

(Includes Travel Insurance & Background Check)

In-Country Transportation

From Belize City, you will have one of two options for transport to the Stann Creek District:

1. Bus transport provided by KK4J (included in land cost above)
2. 'Puddle-jumper' flight from BZE to Dangriga:

1-way: \$100/person

Round-trip: \$175/person

Trip Information

Belize is primarily an English-speaking country. We see patients starting on Thursday morning and continue through Saturday. Your departure date will be Sunday. It's medicine the way you love to practice: for the joy of helping and NO paperwork . . . at least only the paperwork that really matters!

You do not need to be "medically trained" to serve the Lord with KidzKonekt4Jesus Medical Ministry. We also need people to serve with patients, pharmacy, logistical administration & evangelism. Join us!!!

Accommodations at Camp Legacy are equipped with A/C in sleeping & dining areas. Your land cost of \$600 includes your meals, water, lodging & transportation within Stann Creek District. You're responsible for your airfare between the U.S. & Belize City (BZE). Please book a flight arriving before Noon & a departure flight departing after Noon, then email your confirmation to todd@kk4jesus.org.

and...pray about coming early to serve in the villages and schools before medical starts! You will love it!

We need you!

We are following up with patients identified by our doctors, both for spiritual discipleship and monitoring their health post-clinic. Pray these efforts increase the opportunity to disciple and encourage these precious people of Belize who have come to trust our medical teams over the years. Many seeds have been sown. Pray for workers of the Harvest to come join our team in 2023!

Medical Mission Trips

There are several aspects of this mission opportunity that make it unique. First and foremost, we seek to offer ongoing care. We return to the same villages quarterly. By using this model, we have been able to treat chronic conditions, and monitor progression of disease and response to therapy. It has been very rewarding to see hypertensive and diabetic patients become controlled and symptomatically improved! Additionally, we have developed relationships with local health care workers and facilities. This partnership has been instrumental in opening opportunities to serve and meet needs that would not otherwise be possible. Our trips have not only been welcomed but encouraged and strengthened because of this cooperative relationship. Many international mission organizations have considered Belize a "reached nation". Because of this, many organized groups have greatly curtailed or ceased missionary work in this country. Most of the people with whom we come in contact have a cursory knowledge of Jesus, but the seed has been sown in such

shallow manner, there is no depth of relationship with the Savior. Rather than be another group that does a one-time VBS or hands out gospel tracts, we feel it is more significant to SHOW these people the love of Jesus, in addition to telling them about His love. Most have heard about it, but need to see it in action. This is the most important component of our mission work. By offering healing to their bodies, we can extend that relationship into a knowledge of the healing power of Jesus Christ. YOU will be their example of the Great Physician!

Serving Him Together,
Dr. Ed Behling

"And when did we see you sick or in prison and visit you?" And the King will answer them, 'Truly, I say to you, as you did it to one of the least of these my brothers, you did it to me.'

Matt. 25:39-40
